**Read all instructions prior to installation.**

**CAUTION**

Failure to read these instructions prior to installation may result in personal injury, property damage, or product failure. Manufacturer assumes no responsibility for product failure due to improper installation.

**Lea todas las instrucciones antes de hacer la instalación.**

**ADVERTENCIA**

El no leer estas instrucciones de instalación puede resultar en lesiones personales, daños a la propiedad, o falla en el funcionamiento del producto. El fabricante no asume ninguna responsabilidad por la falla del producto debido a una instalación incorrecta.

**Veuillez lire toutes les instructions avant l'installation.**

**AVERTISSEMENT**

L'omission de lire les présentes instructions avant l'installation peut entraîner des blessures, des dommages matériels ou le bris du produit. Le fabricant se dégage de toute responsabilité à l'égard d'un bris du produit causé par une mauvaise installation.

**CAUTION**

Maximum weight capacity is 250 lbs.

The shower seat meets the size and weight requirements for a rectangular shower seat. Installation should always be done in accordance with ADA standards.

**ADVERTENCIA**

La capacidad máxima de peso es de 250 lbs.

El asiento de ducha cumple con los requisitos de tamaño y peso para un asiento de ducha rectangular. La instalación siempre debe hacerse de acuerdo con las normas de ADA.

**AVERTISSEMENT**

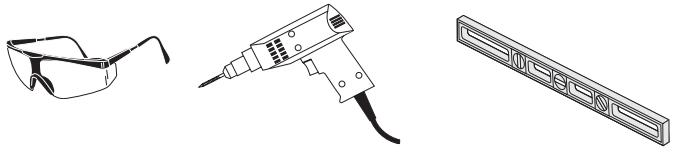

La capacité de poids maximale est de 250 lb.

Le siège de douche répond aux exigences de taille et de poids pour un siège de douche rectangulaire. L'installation doit toujours être effectuée conformément aux normes ADA.

**Blocking installation**  
**Instalación del bloqueo**  
**Installation de la traverse**

**WARNING**

The mounting brackets must be anchored to a solid structure assuring a safe and secure installation. Secure a 2"x12" blocking or equivalent to the studs, for an adequate anchor base. To avoid personal injury, follow these installation instructions.

1. First determine the finished seat height. The height should be 17"-19" above the finished floor. Mark this location on the studs.
2. Measure 1 inch down to locate the top of the blocking.
3. Notch the studs for either a 2"x12" blocking or two 2"x6".
4. Attach the blocking with construction adhesive and screws.

**ADVERTENCIA**

Los soportes de montaje deben estar anclados a una estructura sólida que asegure una instalación segura. Asegure un bloqueo de 2"x12" o equivalente a los montantes, para una base de anclaje adecuada. Para evitar lesiones personales, siga la recomendación para la instalación.

1. Primero determine la altura final del asiento. La altura debe ser de 17" a 19" por encima del piso terminado. Marque esta ubicación en los montantes. Mida 1 pulgada hacia abajo para ubicar la parte superior del bloqueo.
2. Haga muescas en los montantes para un bloqueo de 2"x12" o dos de 2"x6".
3. Fije el bloqueo con adhesivo de construcción y tornillos.

**AVERTISSEMENT**

Les supports de montage doivent être ancrés dans une structure pleine pour que l'installation soit solide et sécuritaire. Fixez une traverse de 2 po sur 12 po ou un renfort équivalent aux montants pour pouvoir y ancrer les supports de montage adéquatement. Pour éviter les blessures, suivez l'installation recommandée.

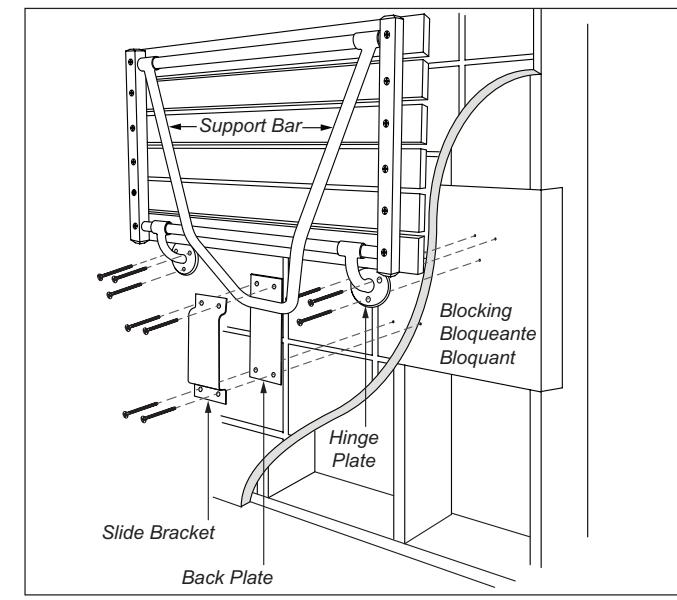

1. Déterminez d'abord la hauteur du siège installé. Celui-ci doit se trouver en un point situé de 17 po à 19 po au-dessus du plancher fin. Marquez l'emplacement sur les montants. Le haut de la traverse doit se trouver un pouce plus bas.
2. Encochez les montants pour pouvoir y loger un morceau de 2 po sur 12 po ou deux morceaux de 2 po sur 6 po.
3. Fixez la traverse ou les traverses avec de la colle de construction et des vis.

**AVERTISSEMENT**

Les supports de montage doivent être ancrés dans une structure pleine pour que l'installation soit solide et sécuritaire. Fixez une traverse de 2 po sur 12 po ou un renfort équivalent aux montants pour pouvoir y ancrer les supports de montage adéquatement. Pour éviter les blessures, suivez l'installation recommandée.

1. Déterminez d'abord la hauteur du siège installé. Celui-ci doit se trouver en un point situé de 17 po à 19 po au-dessus du plancher fin. Marquez l'emplacement sur les montants. Le haut de la traverse doit se trouver un pouce plus bas.
2. Encochez les montants pour pouvoir y loger un morceau de 2 po sur 12 po ou deux morceaux de 2 po sur 6 po.
3. Fixez la traverse ou les traverses avec de la colle de construction et des vis.

**Seat installation**  
**Instalación del asiento**  
**Installation du siège**

1. Attach the template to the wall securely lining up the "top of seat line" with the preplanned seat height determined during the header installation. This line must be level.

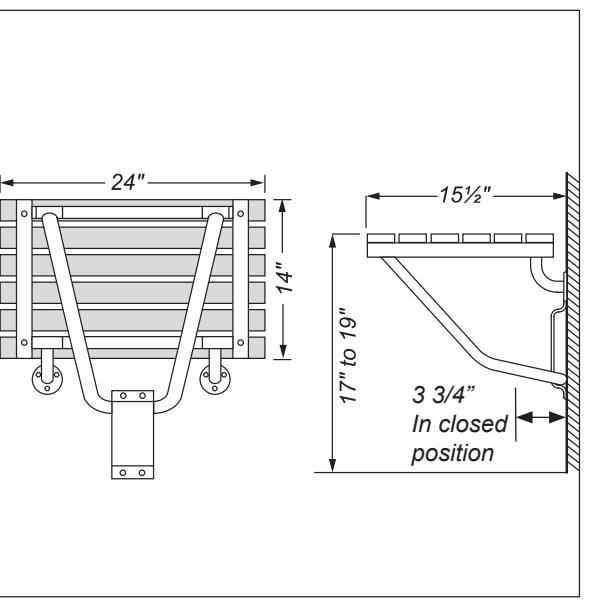

2. Predrill 10 clearance holes through the tile and cement only with a proper drill. Then drill a small pilot hole in the center of each clearance hole.

3. Remove the template.

4. Attach the seat to the wall starting with the upper hinge plates and then the slide bracket, support bar and back plate to the wall. Do not fully tighten the screws. Leave the last 1/8" of tightening until all screws are in and then tighten.

**NOTE:** You may experience some tension when folding the seat up against the wall.

5. Lower the seat. It is now ready for use.

1. Fije la plantilla a la pared alineando de forma segura la "línea superior del asiento" con la altura de asiento pre-plantillada previamente determinada durante la instalación del cabezal. Esta línea debe estar nivelada.

2. Preebre 10 orificios de espacio libre a través de la baldosa y cemento solo con un taladro adecuado. Luego perfora un pequeño orificio piloto en el centro de cada orificio de espacio libre.

3. Quite la plantilla.

4. Fije el asiento a la pared comenzando con las placas de bisagra superiores y luego el soporte deslizante, la barra de soporte y la placa posterior a la mano. Apriete completamente la barra de soporte y la placa posterior a la mano. No apriete la placa anterior a la mano. Quite el tornillo de la placa anterior.

**NOTA:** Puede experimentar algo de tensión cuando dobla el asiento contra la pared.

5. Baje el asiento. Ahora está listo para su uso.

1. Fixe le gabarit au mur en alignant solidement la « ligne supérieure du siège » avec la hauteur d'assise pré-planifiée déterminée lors de l'installation de l'en-tête. Cette ligne doit être de niveau.

2. Préparez 10 trous de dégagement à travers la tuile et le ciment uniquement avec une perceuse appropriée. Percez ensuite un petit trou pilote au centre de chaque trou de dégagement.

3. Supprimez le modèle.

4. Fixez la mèche au mur en commençant par les plaques de charnière supérieures, puis le support coulissant, la barre de support et la plaque arrière au mur. Ne serrez pas complètement les vis. Laissez le dernier 1/8 po de serrage jusqu'à ce que toutes les vis soient en place, puis serrez.

**NOTE:** Vous pouvez ressentir une certaine tension lorsque vous rabatbez le siège contre le mur.

5. Abaissez le siège. Il est maintenant prêt à l'emploi.

**Limited Warranty on Delta® Steam Bath and Steam Shower Products**

*Applicable to products purchased and installed in the USA and Canada*

**Residential Steam Bath Generators:** Delta Faucet Company ("DFC") warrants to the original consumer purchaser that the parts (except for electronic parts) of its residential steam bath generator purchased from authorized Delta sellers will be free from defects in materials and workmanship for as long as the original consumer purchaser owns the home in which the steam bath was originally installed. This lifetime limited warranty does not apply to residential steam bath generators that are used in commercial applications (as defined herein).

**Residential Electronic Parts, Controls, Spa Options and Accessories:** DFC warrants to the original consumer purchaser that the electronic parts of its steam bath generator and its controls, spa options and accessories purchased from authorized Delta sellers will be free from defects in materials and workmanship for a period of two (2) years from the date that the product is received by the original consumer purchaser or their authorized representative (installation contractor, etc.). This two-year limited warranty does not apply to controls, spa options, electronic parts and accessories that are used in commercial applications (as defined herein).

**Commercial Warranty:** For the purposes of this warranty the term "commercial application" refers to installation in any setting in which the product is not being used for personal household use, including but not limited to hospitality applications, day spas, short-term and long-term rentals and gyms.

DFC warrants that the parts (including electronic parts) of its steam bath generators (including steam bath generators with model numbers beginning with SCOM, which are used in commercial applications) will be free from defects in materials and workmanship for a period of two (2) years from the date that the product is received by the original consumer purchaser or their authorized representative (installation contractor, etc.) and with prior approval by DFC. DFC will pay for labor for repair/replacement associated with warranty coverage. Thereafter, DFC will not pay for labor associated with removal/repair/replacement of products covered by this warranty.

For commercial applications, DFC will, with prior approval by DFC, pay for labor associated with warranty coverage for ninety (90) days from the date that the product is received by the original consumer purchaser or their authorized representative (installation contractor, etc.). Thereafter, DFC will not pay for labor associated with removal/repair/replacement of products covered by this warranty.

**What we Will Do:** DFC will, at its option, repair or replace, free of charge, any part that proves defective in material and/or workmanship under normal installation, use and service during the applicable warranty period as stated above. DFC may elect to refund the purchase price. Replacement parts are subject to availability and may differ from those originally supplied.

For residential steam bath generators, two (2) years following the date that the product was received by the original consumer purchaser or their authorized representative (installation contractor, etc.) and with prior approval by DFC, DFC will pay for labor for repair/replacement associated with warranty coverage. Thereafter, DFC will not pay for labor associated with removal/repair/replacement of products covered by this warranty.

For commercial applications, DFC will, with prior approval by DFC, pay for labor associated with warranty coverage for ninety (90) days from the date that the product is received by the original consumer purchaser or their authorized representative (installation contractor, etc.). Thereafter, DFC will not pay for labor associated with removal/repair/replacement of products covered by this warranty.

**What is Not Covered:** Because DFC is unable to control the quality of Delta products sold by unauthorized sellers, unless otherwise prohibited by law, this warranty does not cover Delta products purchased from unauthorized sellers.

This warranty does not cover damage caused by improper or negligent installation or use. Provided that DFC is paying the cost of the labor under the terms above, this warranty does not cover repairs attempted by any person other than an authorized DFC agent and shall be limited to the repair or replacement of defective parts by DFC or its authorized agent.

**This warranty is void if any of the following conditions occur:**

- The use of the product for a commercial application, including any part that proves defective in material and/or workmanship under normal installation, use and service during the applicable warranty period as stated above.
- Failure to follow instructions, including care, cleaning and usage instructions, provided in the product's owner's manual.
- The product's serial number has been altered or removed.
- The product is modified in any manner which DFC concludes, after its inspection, affects the reliability of the product.
- The product has been improperly repaired by anyone not specifically designated or authorized by DFC.
- The product is damaged because it is not operated or installed in accordance with supplied instructions.
- The product is installed outdoors.
- The product is installed in a moist and/or humid area with unconditioned air or temperatures that exceed 104 degrees Fahrenheit.
- The product is damaged due to freezing.
- The product is damaged by acts of God.

**How to Make a Warranty Claim:** To obtain warranty repair or replacement, contact DFC at: 800-394-6478 or [steam-prodser@deltafaucet.com](mailto:steam-prodser@deltafaucet.com) to receive an RGA# (Return Goods Authorization number) which must be on the carton that is returned via UPS Ground or equivalent. Proof of purchase (original sales receipt showing purchase date) identifying the model and serial number and documentation of the date of receipt of the product by the original purchaser or their authorized representative (installation contractor, etc.) must accompany all warranty claims.

**Limitation on Duration of Implied Warranties:** Please note that some states/provinces (including Quebec) do not allow limitations on how long an implied warranty lasts, so the below limitations may not apply to you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ANY IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED TO THE STATUTORY PERIOD OR THE DURATION OF THIS WARRANTY, WHICHEVER IS SHORTER.

**Limitation of Special, Incidental or Consequential Damages:** Please note that some states/provinces (including Quebec) do not allow the exclusion or limitation of special, incidental or consequential damages, so the below limitations may not apply to you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS WARRANTY DOES NOT COVER, AND DFC SHALL NOT BE LIABLE FOR, ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES WHETHER ARISING OUT OF BREACH OF AN EXPRESS OR IMPLIED WARRANTY, BREACH OF CONTRACT, TORT, OR OTHERWISE.

**Additional Rights:** This warranty gives you specific legal rights, and you may also have other rights which vary from state/province to state/province. This is DFC's exclusive written warranty and the warranty is not transferable.

**Garantía limitada de los productos Delta® Steam Bath y Steam Shower**

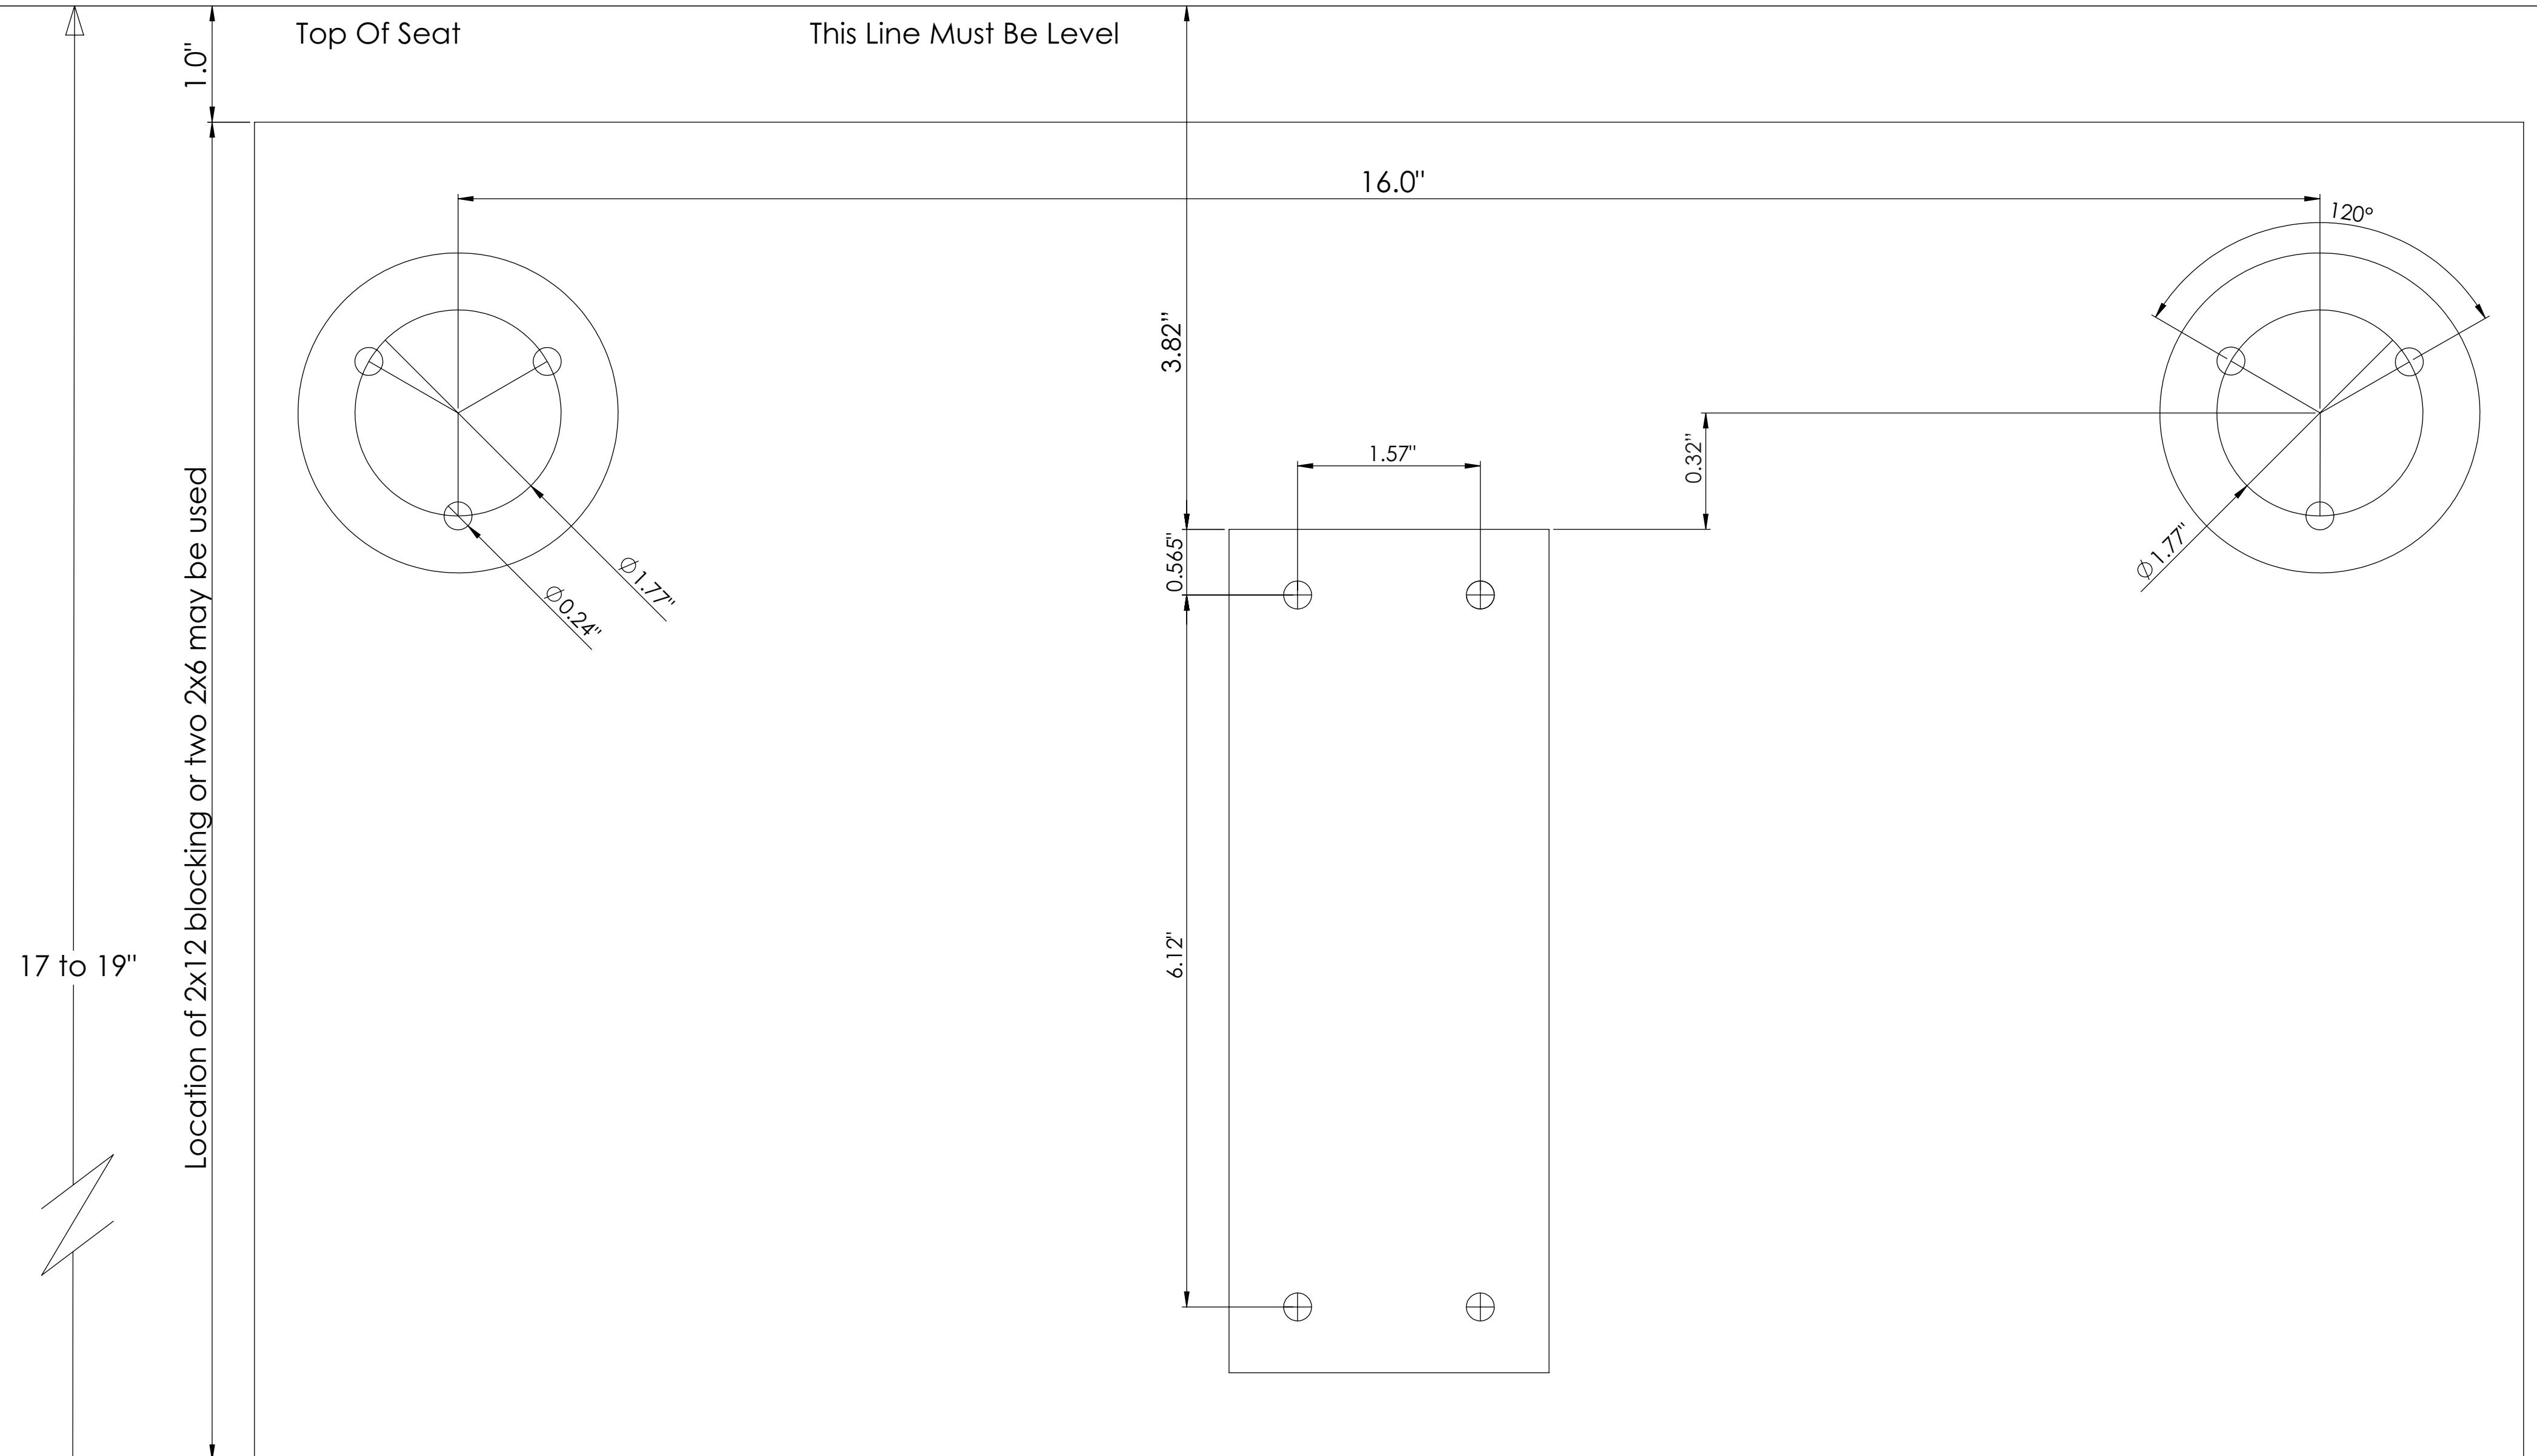

*Aplicable a productos comprados e instalados en EE. UU. y Canadá*

**Generadores de baños de vapor residenciales:** Delta Faucet Company ("DFC") garantiza al comprador consumidor original que las partes (excepto las partes electrónicas) de su generador de baño de vapor residencial comprado a vendedores autorizados de Delta estarán libres de defectos en materiales y de fabricación durante el tiempo que el comprador consumidor original es dueño de la casa en la que se instaló originalmente el baño de vapor. Esta garantía limitada de por vida no se aplica a los generadores de baños de vapor residenciales que se utilizan en aplicaciones comerciales (como se define en este documento).

**Piezas electrónicas residenciales, controles, opciones de spa y accesorios:** DFC garantiza al comprador consumidor original que las partes electrónicas de su generador de baño de vapor y sus controles, opciones de spa y accesorios comprados a vendedores autorizados de Delta estarán libres de defectos en materiales y de fabricación durante un período de dos (2) años a partir de la fecha que el producto es recibido por el comprador consumidor original o su representante autorizado (contratista de instalación, etc.). Esta garantía limitada de dos años no se aplica a los controles, spa opciones, piezas electrónicas y los accesorios que se utilizan en aplicaciones comerciales (como se define en este documento).

**Garantía Comercial:** A los efectos de esta garantía, el término "aplicación comercial" se refiere a la instalación en cualquier entorno en el que el producto no se utilice para uso doméstico personal, incluidas, entre otras, aplicaciones de hospitalidad, spas de día y servicios a corto y largo plazo, albercas a plomo y gimnasios.

DFC garantiza que las piezas (incluidas las piezas electrónicas) de sus generadores de baños de vapor (incluidos los generadores de baños de vapor con números de modelo que comienzan con SCOM, que están destinados únicamente para un uso comercial pesado), los equipos, controles, piezas electrónicas, opciones de spa y accesorios comprados a vendedores autorizados de Delta y utilizados en una aplicación comercial estarán libres de defectos de materiales y mano de obra durante un período de uno (1) año a partir de la fecha en que el comprador original
